

## Environmental, Safety and Health Policies

Delta's corporate mission is "To provide innovative, clean and energy-efficient solutions for a better tomorrow" by continuously implementing world-class corporate social responsibility and sustainable development.

### Delta's Commitments and Actions:

- **Regulatory compliance:** Delta complies with or surpass both domestic and international environmental, safety and health regulations and requirements, as well as actively responds to international initiatives and voluntary commitment.
- **Environmental protection and Energy Conservation:** Delta continuously promotes, follow up and review efficient use of energy and natural resources to reduce waste, prevent pollution and improve environmental performance
- **Safety and Health Enhancement:** Delta identifies and manages environmental, safety and health risks to create a work environment that promotes personnel health and prevents occupational injuries and disease.
- **Product Responsibility:** Delta invests in green research and development to develop environmental-friendly products to conserve the planet's resources and alleviate the impact on the environment.
- **Collective Awareness Enhancement:** Delta encourages workers participation and awareness to help eliminate hazards and reduce environmental, safety, and health risk.
- **Internal and External Communication Strengthening:** Delta strengthens communication and advocate with stakeholders and with their participation. Delta continues to improve and advance the performance in the management of environmental safety and health.
